Assignment 01

This is an individual Assignment: Software Requirements Specification Report on OOP Project.

You are required to prepare a **Complete Software Requirement Specification (SRS) Document** for the system you developed in your OOP project, covering the following topics:

1. **Introduction** – Overview of Software project and its importance.
 - Purpose.
 - Intended Audience.
 - Scope.
 - Definitions, Acronyms, Abbreviations.
2. **Overall Description** – Product perspective, product functions, user characteristics, assumptions, and constraints.
 - Product Perspective.
 - Product Functions (summary only).
 - User Classes & Characteristics.
 - Operating Environment.
 - Constraints.
 - Assumptions & Dependencies.
3. **Functional Requirements** – Clearly defined system functionalities using structured format (FR-01, FR-02, etc.)
4. **Non-Functional Requirements** – Performance, security, usability, reliability, and availability requirements.
5. **External Interface Requirements** – User interfaces, hardware interfaces, and software interfaces.

6. **System Constraints** – Technical, regulatory, and environmental limitations.
7. **Appendices** – Use case diagrams, glossary, and any supporting materials.

Submission Guidelines

Formatting Requirements

- Font: 12-point Times New Roman
- Margins: 1-inch on all sides
- Word Count: **1500-2000** words
- Tables and image captions should be included. (Center Align)
- Submission Format: **PDF** document.

Note: Clarity and formatting will also be evaluated.

Submission Instructions

- **Deadline:** 27th April 2026 (11:59 PM)
- **Submission Method:** Upload your report to the submission box onto the ekel course page.
- **File Name:** Format your file name as “**StudentNo_SRS**” (e.g., “**XX/2023/XXX_SRS.pdf**”).
